

Swanage Medical Practice PPG

Priorities for 2022/23

Our top priorities for the next year are to:

1. Recruit new PPG members
2. Start meeting face-to-face again as a PPG
3. Start talking to patients face-to-face again at the Surgery about their experiences of using local services - once it is safe to do so
4. Support the development of the new Practice website.

We will also continue to:

- Promote awareness of new services being offered to patients and support their delivery
- Support the Practice to deliver initiatives that promote health, prevent ill health and promote self-care
- Promote awareness of the Purbeck Primary Care Network (PCN) and the new services being offered by the PCN
- Promote awareness of the Purbeck Youth PPG and its remit, and support efforts to recruit new YPPG members
- Work with the PPGs of the other five practices within the Purbeck PCN - and the Purbeck Youth PPG - to support the Purbeck PCN to identify and deliver its priorities
- Host stands at local events - eg the Purbeck Carers Event on 8 June 2022
- Raise funds to help improve the services provided by the Practice.
